**KKH 20 SQL (772 314)**

- Earthing and short-circuiting devices can be configured online by means of the earthing and short-circuiting configurator

We reserve the right to introduce changes in performance, configuration and technology, dimensions, weights and materials in the course of technical progress. The figures are shown without obligation.

The clamps must be designed for the same maximum short-circuit current as the earthing and short-circuiting cables!
