

Wireless inspection camera for installations up to 123 kV

Easy and quick inspections on switchgear installations – even on difficult to access parts

Facilitates work:

The inspection camera makes regular inspections on medium-voltage and low-voltage installations easier: Difficult to access parts can be easily reached with the flexible operating head.

Brings the invisible to light:

The inspection camera allows the state of the installation to be monitored without great effort. Tools forgotten during maintenance work can be found with the help of photos and films.

Increases safety:

Photos of the installation are transmitted live from the inspection camera to a smartphone or tablet computer via WLAN. This ensures that the electrician does not have to enter the live working zone.

Saves time:

The installation does not have to be disconnected during inspection. The state of the installation can be evaluated with the help of photos and films and measures can be discussed.

Wireless inspection camera for installations up to 123 kV

Reliable inspection and easy operation thanks to WLAN

Wireless inspection camera is a complete set in a case. It consists of a camera with battery, USB cable, smartphone attachment, housing, adapter with gear coupling and transport case.

- For visual inspection of electrical installations with nominal voltages up to 123 kV / 15 to 60 Hz (without special training)
- For documentation of the state of the installation
- Installation does not have to be disconnected
- Wireless operation of the camera via smartphone or tablet computer
(System requirements: Android version 4.0 - 5.1 or iOS version 7.0 - 9)

SET DIGIK	Part No. 766 390
Standard	Based on EN 50508
Camera	18.2 megapixels Wide-angle lens with 10x optical zoom Optical image stabiliser Autofocus PlayMemories Home App Wi-Fi integrated Micro-USB 2.0 connection HD video recordings in MP4 format Temperature range: 0 °C ... +40 °C Material: Plastic
Dimensions of the case	395 x 290 x 105 mm

HG ZK 230	Part No. 766 393
	Handle* with gear coupling up to 1000 V / 15 to 60 Hz and 1500 V / d.c. * Not included in delivery
